RAILROAD DISCRIMINATION.

The following from the Carson Appeal gives a good idea of how this State is being robbed by the railroads. We wish all to read it:

We hear it said that no dissatisfaction exists against our local roads. Let us see if there is no ground for dissatisfaction. The distance from Reno to San Francisco is about 300 A ton of freight landed in Reno from the Boy costs, for transportation, about \$30. That is at the rate of ten cents per ton per mile. A ton of freight brought from Reno here (on its way from San Francisco in an unbroken train of freight cars loaded in that city and never opened noted in that city and never opened until they arrive here), cost at the rate of \$6 per ton. The distance is thirty miles This is at the rate of twenty cents per ton per mile. At this rate, a car-load of ten tons shipped from Buffelo (say 2,000 miles distant), would cost just \$6,000. And yet we are told that there is no fault to be found with the local roads It is about 1,400 miles from Boston to Chicago The Chicago merchant gets his wares from Boston at about \$6 per ton. That is to say, it costs as much to ship a ton of goods in a train of cars made up in San Francis co and never unlocked until they get

to have the same weight and amount of goods, wares and merchandise shipped from Boston, Massachusetts, to Chicago, Illinois. Is it any won-

our local roads decline to comply

with the law compelling an exhibit,

each year, of their transactions? TALK IS CHEAP .- And so are fine clothing, boots, shoes, and gentlemen's and boys' fine furnishing goods, if you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind I do not boast when I say that I defy competition in prices in anything in my line. Be sides this I have only one price. I have no preferred customers. Everybody is treated alike at my establish. ment. My stock is the largest and most complete ever offered in any part of this State. Everything I have is new. No old, musty and outof-date goods can be found on my I receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago, Let the people come and judge of my prices and examine my stock be fore going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below Anybody with common sense must know that they lie. No store keeper sells goods for the fun of the thing. 1 make a profit on everything as every honest merchant does. and don't print foolish falsehoods in the vain hope of deceiving the public. The other day a resolution passed Congress authorizing the Secretary of the Interior to inquire into the reason why a railroad was being built across the public domain in Arizona without permission or right. When the Secretary begins to investigate he will find that the Central Pacific is spending all its surplus to build the Southern Pacific, and that the Government is thus deprived of its rightful income. So anxious are they to secure a monopoly against Tom Scott that they are crowding the new road through at the rate of a mile a day, and that the only authority they can show is an Act of the Arizona Territorial Legislature. But the Southern Pacific will keep right on. Our Government has never yet compelied the giant corporations to obey the laws, and it is hardly likely they will succeed now.

less about stamping letters. Daily Postmaster Jamison finds several with out the necessary stamps, and as Reno has no Y M. C. A. to stamp them they are sent to the Dead Let ter office to be returned to the writer. if his or her name is signed. Some time since a letter was dropped into mittal, and also obtaining manimous the office with the name of the person only upon it. Of course it had to go to the Dead Letter office, for the P. M. could not guess whether it went to Verdi or Omaha. Presently the letter returned to the Reno office, with instructions to find the writer if possible. It contained a \$20 gold by General Gardeld, Haskell of Kannote; was addressed to "My dear daughter" and signed "Mother." Mr Jamison went to work to solve the question, and one little clue led him to think a certain lady had written it. Upon being interviewed he discovered the right person who had long since given the money up for lost, thinking Postal Clerks had stolen it. Statistics from the Dead Letter office show that all are not as successful as the case quoted. A little care would prevent such loss and annoyance.

Working Against Reno.

Washoe county compels the Central Pacific Railroad to pay a fair taxation, and nothing more, upon its property within the county. For this bemous crime the railroad does everything in its power to retard the town. A merchant from Utah has given us a few figures which the public will do well to ponder over. This merchant is able to ship produce from Utah to California for 11/4 cents per pound, while to ship the same article to Reno he is required to pay 31/2 cents. - These figures need no comment. Certainly they can afford to lay freight down much cheaper in Reno than they can after thing and compel common honesty or take the property from them.

A gentleman tells us that there are four dame in the Truckee river between Reno and ten' miles below Wadsworth, over which the fish have a hard time to get. In fact only the very strongest are able to jump them at all. The Fish Commissioner should look into this matter and see the way is cleared. If the fish cannot get to the spawning grounds it will not be long before

The ex-dance house will make a good paint shop and can be open as much as the owners please, with no danger of a bombardment, which can not be said of its former and more wicked days.
